

# T3 GREEN outperforms all others

STRUCTURAL SOFTWOOD FRAMING

## What is T3 Green?

T3 Green is MGP10 structural softwood framing for use in outdoor weather exposed, above ground applications like pergolas, carports, decks and verandahs.

**Australian MGP10**

**Replaces F5 & F7**

**No Chrome, No Arsenic**

**25 Year Guarantee**

## What are the active ingredients of T3 Green?

T3 Green contains H3 levels of the following:

- Insecticide (for borers and termites) – Permethrin.
- Fungicides – Tebuconazole and Propiconazole.
- No Chrome. No Arsenic.

Arch guarantees T3 Green used in the construction for outdoor above ground use, for a period of 25 years from the date of supply. Any correctly installed T3 Green that becomes structurally unserviceable within the guarantee period will be repaired or replaced at not cost to the homeowner, subject to terms in the guarantee.
